THE SCIENCE OF HEALTHY BEHAVIORS

Indiana Science Academic Standards: Grades 6 – 8

inulana Science Academic Standards. Grades 0 – 0			
	Grade 6		
Lesson	Standard	Description	
1, 3, 4	6.1.2	Give examples of different ways scientists investigate natural phenomena and identify processes all scientists use, such as collection of relevant evidence, the use of logical reasoning, and the application of imagination in devising hypotheses and explanations, in order to make sense of the evidence.	
1, 2, 3, 4	6.1.3	Recognize and explain that hypotheses are valuable, even if they turn out not to be true, if they lead to fruitful investigations.	
1, 3	6.1.6	Explain that computers have become invaluable in science because they speed up and extend people's ability to collect, store, compile, and analyze data; prepare research reports; and share data and ideas with investigators all over the world.	
1, 3, 4	6.1.7	Explain that technology is essential to science for such purposes as access to outer space and other remote locations, sample collection and treatment, measurement, data collection and storage, computation, and communication of information.	
3	6.2.2	Use technology, such as calculators or computer spreadsheets, in analysis of data.	
3, 4	6.2.5	Organize information in simple tables and graphs and identify relationships they reveal. Use tables and graphs as examples of evidence for explanations when writing essays or writing about lab work, fieldwork, etc.	
3, 4	6.2.6	Read simple tables and graphs produced by others and describe in words what they show.	
3, 4, 5	6.2.7	Locate information in reference books, back issues of newspapers and magazines, CD-ROMs, and computer databases.	
3, 4, 5	6.2.8	Analyze and interpret a given set of findings, demonstrating that there may be more than one good way to do so.	
		Grade 7	
Lesson	Standard	Description	
1, 3, 4	7.1.1	Recognize and explain that when similar investigations give different results, the scientific challenge is to judge whether the differences are trivial or significant, which often takes further studies to decide.	
1, 2, 3, 4	7.1.4	Describe that different explanations can be given for the same evidence, and it is not always possible to tell which one is correct without further inquiry.	
3	7.2.7	Incorporate circle charts, bar and line graphs, diagrams, scatterplots, and symbols into writing, such as lab or research reports, to serve as evidence for claims and/or conclusions.	
1, 3, 4, 5	7.4.11	Explain that the amount of food energy (calories) a person requires varies with body weight, age, sex, activity level, and natural body efficiency. Understand that regular exercise is important to maintain a healthy heart/lung	

		system, good muscle tone, and strong bone structure.
3	7.5.4	Describe that the larger the sample, the more accurately it represents the whole. Understand, however, that any sample can be poorly chosen and this will make it unrepresentative of the whole.
1, 3	7.7.2	Use different models to represent the same thing, noting that the kind of model and its complexity should depend on its purpose.
4	7.7.3	Describe how physical and biological systems tend to change until they reach equilibrium and remain that way unless their surroundings change.
		Grade 8
Lesson	Standard	Description
1, 2, 3	8.1.1	Recognize that and describe how scientific knowledge is subject to modification as new information challenges prevailing theories and as a new theory leads to looking at old observations in a new way.
3, 4	8.1.3	Recognize and describe that if more than one variable changes at the same time in an experiment, the outcome of the experiment may not be attributable to any one of the variables.
1, 3	8.1.5	Explain why research involving human subjects requires that potential subjects be fully informed about the risks and benefits associated with the research and that they have the right to refuse to participate.
1	8.1.8	Explain that humans help shape the future by generating knowledge, developing new technologies, and communicating ideas to others.
3	8.2.6	Write clear, step-by-step instructions (procedural summaries) for conducting investigations, operating something, or following a procedure.
All lessons	8.2.7	Participate in group discussions on scientific topics by restating or summarizing accurately what others have said, asking for clarification or elaboration, and expressing alternative positions.
1, 3	8.2.8	Use tables, charts, and graphs in making arguments and claims in, for example, oral and written presentations about lab or fieldwork.
1, 3	8.2.9	Explain why arguments are invalid if based on very small samples of data, biased samples, or samples for which there was no control sample.
3	8.5.4	Illustrate how graphs can show a variety of possible relationships between two variables.
3	8.7.3	Use technology to assist in graphing and with simulations that compute and display results of changing factors in models.
Indiana Mathematics Academic Standards: Grades 6 – 8		
		Grade 6
Lesson	Standard	Description
3	6.2.1	Add and subtract positive and negative integers.
3	6.2.2	Multiply and divide positive and negative integers.

3	6.3.9	Investigate how a change in one variable relates to a change in a second variable.
3	6.6.1	Organize and display single-variable data in appropriate graphs and stem-and-leaf plots, and explain which types of graphs are appropriate for various data sets.
3	6.7.5	Express solutions clearly and logically by using the appropriate mathematical terms and notation. Support solutions with evidence in both verbal and symbolic work.
3	6.7.9	Make precise calculations and check the validity of the results in the context of the problem.
		Grade 7
Lesson	Standard	Description
3	7.2.1	Solve addition, subtraction, multiplication, and division problems that use integers, fractions, decimals, and combinations of the four operations.
3	7.6.1	Analyze, interpret, and display data in appropriate bar, line, and circle graphs and stem-and-leaf plots and justify the choice of display.
3	7.6.4	Analyze data displays, including ways that they can be misleading. Analyze ways in which the wording of questions can influence survey results.
3	7.7.6	Express solutions clearly and logically by using the appropriate mathematical terms and notation. Support solutions with evidence in both verbal and symbolic work.
3	7.7.10	Make precise calculations and check the validity of the results in the context of the problem.
-		Grade 8
Lesson	Standard	Description
3	8.2.1	Add, subtract, multiply, and divide rational numbers (integers, fractions, and terminating decimals) in multi-step problems.
3	8.6.1	Identify claims based on statistical data and, in simple cases, evaluate the reasonableness of the claims. Design a study to investigate the claim.
3	8.6.2	Identify different methods of selecting samples, analyzing the strengths and weaknesses of each method, and the possible bias in a sample or display.
3	8.6.4	Analyze, interpret, and display single- and two-variable data in appropriate bar, line, and circle graphs; stem-and-leaf plots; and box-and-whisker plots and explain which types of display are appropriate for various data sets.
3	8.7.6	Express solutions clearly and logically using the appropriate mathematical terms and notation. Support solutions with evidence in both verbal and symbolic work.
3	8.7.10	Make precise calculations and check the validity of the results in the context of the problem.
Indiana English Language Arts Academic Standards: Grades 6 - 8		
Grade 6		
Lesson	Standard	Description
	.	·

1, 3, 4, 5	6.1.4	Understand unknown words in informational texts by using word, sentence, and paragraph clues to determine meaning.
1, 3, 4, 5	6.2.4	Clarify an understanding of texts by creating outlines, notes, diagrams, summaries, or reports.
1, 3, 4, 5	6.2.7	Make reasonable statements and conclusions about a text, supporting them with evidence from the text.
All lessons	6.4.2	Choose the form of writing that best suits the intended purpose.
3	6.4.3	Write informational pieces of several paragraphs that: engage the interest of the reader, state a clear purpose, develop the topic with supporting details and precise language. and conclude with a detailed summary linked to the purpose of the composition.
4, 5	6.5.2	Write descriptions, explanations, comparison and contrast papers, and problem and solution essays that: state the thesis (position on the topic) or purpose, explain the situation, organize the composition clearly, and offer evidence to support arguments and conclusions.
All lessons	6.5.7	Write for different purposes (information, persuasion, description) and to a specific audience or person, adjusting tone and style as necessary.
All lessons	6.6.5	Spell correctly frequently misspelled words (their/they're/there, loose/lose/loss, choose/chose, through/threw).
3, 4, 5	6.7.3	Restate and carry out multiple-step oral instructions and directions.
3, 4, 5	6.7.6	Support opinions with researched, documented evidence and with visual or media displays that use appropriate technology.
4	6.7.11	Deliver informative presentations that: pose relevant questions sufficiently limited in scope to be completely and thoroughly answered, and develop the topic with facts, details, examples, and explanations from multiple authoritative sources, including speakers, periodicals, and online information.
All lessons	6.7.15	Ask questions that seek information not already discussed.
		Grade 7
Lesson	Standard	Description
3, 4	7.2.2	Locate information by using a variety of consumer and public documents.
1, 3, 4, 5	7.2.7	Draw conclusions and make reasonable statements about a text, supporting the conclusions and statements with evidence from the text.
1, 3, 4, 5	7.4.5	Identify topics; ask and evaluate questions; and develop ideas leading to inquiry, investigation, and research.
All lessons	7.5.7	Write for different purposes and to a specific audience or person, adjusting style and tone as necessary.
All lessons	7.7.1	Ask questions to elicit information, including evidence to support the speaker's claims and conclusions.
All lessons	7.7.4	Arrange supporting details, reasons, descriptions, and examples effectively.
Grade 8		
Lesson	Standard	Description
	8.1.3	Verify the meaning of a word in its context, even when its meaning is not directly stated, through the use of

1, 3, 4, 5	8.2.9	Make reasonable statements and draw conclusions about a text, supporting them with accurate examples.
3, 4, 5	8.4.2	Create compositions that have a clear message, a coherent thesis (a statement of position on the topic), and end with a clear and well-supported conclusion.
1, 3, 4, 5	8.4.11	Identify topics; ask and evaluate questions; and develop ideas leading to inquiry, investigation, and research.
All lessons	8.5.7	Write for different purposes and to a specific audience or person, adjusting tone and style as necessary.
All lessons	8.6.1	Use correct and varied sentence types (simple, compound, complex, and compound-complex) and sentence openings to present a lively and effective personal style.
All lessons	8.6.5	Use correct punctuation.
All lessons	8.6.6	Use correct capitalization.
All lessons	8.6.7	Use correct spelling conventions.
4	8.7.12	Deliver research presentations that: define a thesis (a position on the topic), research important ideas, concepts, and direct quotations from significant information sources and paraphrase and summarize important perspectives on the topic, use a variety of research sources and distinguish the nature and value of each, and present information on charts, maps, and graphs.

Explain the relationships between personal health behaviors and the prevention of injury, illness, disease, and premature death. Explain how personal health behaviors influence the functioning of body systems. (6) Explain the interrelationships between behaviors, the functioning of body systems, and overall health. (7 & 8) Describe how one's surroundings influence mental, emotional, social, and physical health. (6) Analyze

8.1.9

4, 5	6.2.2 7.2.2 8.2.2	Demonstrate the ability to utilize resources from home, school, and community that provide valid health information.
4	6.2.5	Identify the role of medical, dental, and other health-related specialists.
4	7.2.6	Describe situations requiring professional health services.
3	6.3.5 7.3.5 8.3.5	Demonstrate the ability to analyze a personal health assessment to determine health strengths and risks.
3	6.4.1 7.4.1 8.4.1	Describe how the family, school, and peers influence the health and health behaviors of adolescents.
1, 2, 3	6.4.3 7.4.3 8.4.3	Analyze how messages from media and other sources influence health behaviors.
3, 4	6.4.4 7.4.4 8.4.4	Analyze the influence of technology on personal and family health and health behaviors.
All lessons	6.5.4 7.5.4 8.5.4	Demonstrate ways to communicate care, consideration, and respect of self and others.
All lessons	6.5.5 7.5.5 8.5.5	Demonstrate attentive listening and other communication skills to build and maintain healthy relationships.
4, 5	6.6.1 7.6.1 8.6.1	Demonstrate the ability to apply a decision-making process to health issues and problems individually and collaboratively.
1, 3, 4, 5	6.6.2 7.6.2 8.6.2	Predict how decisions regarding health behaviors have consequences for self and others.
4	6.6.3 7.6.3 8.6.3	Demonstrate the ability to set health goals that address personal strengths, needs, and health risks.
4	6.6.4 7.6.4 8.6.4	Demonstrate the ability to design a plan that includes strategies to monitor and attain personal health goals.

1, 4, 5	6.7.1 7.7.1 8.7.1	Analyze various communication methods to accurately express health information and ideas.
1, 3, 4, 5	6.7.2 7.7.2 8.7.2	Demonstrate the ability to express information and ideas about health issues.
4, 5	6.7.3 7.7.3 8.7.4	Demonstrate the ability to influence and support others in making positive health choices.
4, 5	6.7.4 7.7.4 8.7.5	Demonstrate the ability to work cooperatively when advocating for healthy individuals, families, and schools.
